(A Peek Behind the Scenes of Running a Small Business 🧐)

Based in London - Running a small business in this beautiful city isn't cheap! With the high costs of studio space, storage, and fair wages for our team, things can add up. But we love being here and wouldn't have it any other way!
Our prices reflect what it takes to keep things running!

Handmade with Love (and tons of scissors action!) - Most of our streamers are made in-house, taking forever (seriously, we're talking hours and hours) to cut and assemble them just right.
When we need a little extra help, we bring in some creative people and make sure they're paid fairly for all their hard work!

Leading the Way - We were the first streamer installers in the UK (yep, trendsetters!). It took a lot of trial and error to figure out the best materials, how to assemble them, and make them look absolutely amazing so by booking with us you're getting the real deal.

**We love getting creative, so if you have a specific budget in mind, chat with us!
We'll find a way to bring your vision to life.**
